

The revolutionary understanding for people who lead in business

There's only one certainty nowadays –and that's uncertainty. The pace of change in world can be described as – **V**olatile, **U**ncertain, **C**omplex & **A**mbiguous. So how can we access more peace, performance and potential?

Current L&D interventions don't equip you with the vital missing ingredient to access greater levels of performance, resourcefulness and wellbeing. The **BEFORE PSYCHOLOGY** approach of Quality of Mind explores a new approach; it is a paradigm shift in how we see the nature of the mind.

OPEN PROGRAMME

6th - 8th **JUNE** | 3 **DAYS**

“This is a fundamental mind shift in the way you see the world. when it dawns on you, it makes a massive difference to life and career.”

COO, Energy Sector

DIFFERENT

We don't work on your behaviours; or teach you to manage your thinking; we show you the fundamentals of how the mind works. When you deeply realise this 'new way' it renders so many of the previous methods redundant.

TRANSFORMATIVE

As we realise the nature of how the mind works – 'upstream' it triggers a pervasive shift in many aspects of life and work 'downstream'.. There are no exceptions, everything is in scope for anyone.

SUSTAINABLE

Once realised, this understanding does not require application or repeated 'doing'. Instead, mindsets dissolve and behaviours become obvious. An instant and sustainable benefit.
